

EC-Council – Certified Network Defender (CND)

EC-Council – Certified Network Defender (CND version 2)

About the Course

CND v2 has earned a reputation as the only program in the market that is 100% focused on network security and defense.

IT professionals need to be part of the cybersecurity ecosystem, especially in a post-COVID Digital Transformation era. If you think cybersecurity is the responsibility of cyber teams alone, think again!

Certified Network Defender v2 has been designed by industry experts to help IT Professionals play an active role in the **Protection** of digital business assets and **Detection** and **Response** to Cyber Threats, while leveraging Threat Intelligence to **Predict** them before they happen. CND is a network security course designed to help organizations

create and deploy the most comprehensive network defense system.

Prerequisites:

- If a candidate have completed an official EC-Council training either at an Accredited Training Center, via the iClass platform, or at an approved academic institution, the candidate is eligible to attempt the relevant EC-Council exam without going through the application process.
-

The course prepares for the following certification levels

- CHFI (Exam Voucher Included). IT-Training.pro is an authorized EC-Council Test Center. You can take the exam with us, after the training.
- The CHFI certification is awarded after successfully passing the exam EC0 312-49. CHFI EC0 312-49 exams are available at ECC exam center around the world. In order to maintain the high integrity of our certifications exams, EC-Council Exams are provided in multiple forms (I.e. different question banks). Each form is carefully analyzed through beta testing with an appropriate sample group under the purview of a committee of subject matter experts that ensure that each of our exams not only has academic rigor but also has “real world” applicability. We also have a process to determine the difficulty rating of each question. The individual rating then

contributes to an overall “Cut Score” for each exam form. To ensure each form has equal assessment standards, cut scores are set on a “per exam form” basis. Depending on which exam form is challenged, cut scores can range from 60% to 78%.
