

NIS 2 Directive Lead Implementer PECB

PECB NIS 2 Directive Lead Implementer (PECB)

About this Course:

- The Certified NIS 2 Directive Lead Implementer training course enables participants to gain the necessary competencies to support organizations in effectively planning, implementing, managing, monitoring, and maintaining a cybersecurity program that meets the requirements of the NIS 2 Directive.

The importance of robust cybersecurity measures cannot be overstated, as organizations are increasingly facing all types of cyberattacks. The NIS 2 Directive is a legislation that has been designed to strengthen the cybersecurity posture of critical infrastructure sectors, including energy, transport, healthcare, and digital services.

By attending the NIS 2 Directive Lead Implementer training course, you gain in-depth knowledge of the directive's requirements, implementation strategies, and best practices that protect critical infrastructure from cyber threats. Through interactive sessions and practical exercises, you will learn how to assess organization's cybersecurity risks, develop robust incident response plans, and implement effective security measures to meet the requirements of NIS 2 Directive. Moreover, you will gain insights into industry standards and best practices that will enable you to stay up to date with the evolving threat landscape and implement cutting-edge cybersecurity solutions. After successfully completing this training course, you will become a trusted cybersecurity professional that possesses the expertise to navigate the complex landscape of critical cybersecurity infrastructure and contribute to the resilience of your organization and society as a whole.

After passing the exam, you can apply for the "PECB Certified NIS 2 Directive Lead Implementer" credential.
