

304-200 – LPI – LPIC-3: 304 Virtualization and High Availability

Course 304-200: Linux Professional Institute LPIC-3 Virtualization and HA

for Exam LPIC3 – 304-200

About this Course:

- The LPIC-3 certification is the culmination of LPI's multi-level professional certification program. LPIC-3 is designed for the enterprise-level Linux professional and represents the highest level of professional, distribution-neutral Linux certification within the industry. Three separate LPIC-3 specialty certifications are available. Passing any one of the three exams will grant the LPIC-3 certification for that specialty. The LPIC-3 304: Virtualization and High Availability course covers the administration of Linux systems enterprise-wide with an emphasis on Virtualization & High Availability.

Course Goals/Skills:

- Virtualization
 - High Availability Cluster Management
 - High Availability Cluster Storage
-

Audience:

- This training is a followup for our LPIC-2 Courses, intended for participants interested in acquiring the LPIC-3 certification. The material in this training course covers all the exam requirements (and the necessary, fundamental topics needed to learn it from ground-up).
-
