

345-2 – Microsoft – Designing and Deploying Microsoft Exchange Server 2016/2019

Course 20345-2-B: Designing and Deploying Microsoft Exchange Server 2016/2019

20345-2 – for exam 70-345

About this Course:

- This course provides experienced Exchange Server administrators with the knowledge to design and implement an Exchange Server messaging environment. The course covers how to design and configure advanced components in an Exchange Server deployment such as site resiliency, advanced security, compliance, archiving and discovery solutions, coexistence with other Exchange organizations or Exchange Online, and migration from previous versions of Exchange server. The course also provides guidelines, best practices, and considerations that will help optimize Exchange Server deployments.

Course Goals/Skills:

- Plan for Exchange Server deployments.
 - Plan and deploy Exchange Server hardware, virtualization, mailbox databases, and public folders.
 - Plan message transport in Exchange Server.
 - Plan and deploy Client Access services in Exchange Server.
 - Design and implement a highly available Exchange Server environment.
 - Maintain Exchange Server by using Managed Availability and Desired State Configuration (DSC).
 - Plan for messaging security and design and implement Active Directory Rights Management Services (AD RMS) and Microsoft Azure RMS in Exchange Server.
 - Design and implement message retention and archiving.
 - Design and implement data loss prevention policies, In-Place Hold, and eDiscovery.
 - Design and implement messaging coexistence among Exchange Server organizations.
 - Plan and implement the upgrade from previous versions of Exchange Server to Exchange Server 2019.
 - Plan a hybrid Exchange deployment.
-

Audience:

- The audience for this course includes IT professionals who are experienced messaging administrators, messaging architects, or consultants. This course is designed for people in an enterprise environment who are responsible for designing and deploying Exchange Server solutions, including environments that contain previous versions of Exchange Server or Exchange Online. Students taking this course are expected to have experience with Exchange

Server 2019 or previous versions of Exchange Server.

Course Format:

Classroom

Online (Live) Remote

Език на курса: български (английски е наличен като опция)

Учебни Метериали: в електронен формат (Учебните материали са на английски), включени в цената с неограничен достъп.

Лабораторна среда: всеки курсист разполага със собствена лаб среда, където се провеждат упражненията, част от курса.

Video Archives (24/7)

Certificate for
Completed Course

Course Duration:

- 5 working days (09:00 – 17:00)
- or
40 hours training theory and practice in non-working hours lasting 4 weeks
Saturday and Sunday 10:00 – 14:00, 14:00 – 18:00, 18:00 – 22:00
Monday and Wednesday 19:00 – 23:00
Tuesday and Thursday 19:00 – 23:00

Payments:

An application for an invoice is accepted at the time of enrollment in the respective course.

An invoice is issued within 7 days of confirming the payment.
