

741 – Networking with Windows Server 2016/2019

Microsoft Official Courses (MOC)

Course 20741B: Networking with Windows Server 2016/2019

for MCSA: Windows Server 2016, EXAM: 70-741

About this Course:

- This course provides the fundamental networking skills required to deploy and support Windows Server 2016/2019 in most organizations. It covers IP fundamentals, remote access technologies, and more advanced content including software-defined networking.
-

Course Goals/Skills:

- Plan and implement an IPv4 network.
Implement Dynamic Host Configuration Protocol (DHCP).
Implement IPv6.
Implement Domain Name System (DNS).
Implement and manage IP address management (IPAM).
Plan for remote access.
Implement DirectAccess.
Implement virtual private networks (VPNs).
Implement networking for branch offices.
Configure advanced networking features.
Implement software defined networking.
-

Audience:

- Windows Server administrators who are relatively new to Windows Server administration and related technologies, and who want to learn more about the storage and compute features in Windows Server 2016/2019.
- IT professionals with general IT knowledge, who are looking to gain knowledge about Windows Server, especially around storage and compute technologies in Windows Server 2016/2019.

The secondary audience for this course are IT professionals looking to take the Microsoft 70-740 certification exam, Installation, Storage and Compute with Windows Server 2016.

Course Format:

Attendance Course

Online (Live) Remote

Course Language Option

Български
(Bulgarian)

Английски
(English)

You can choose the language in which the training will be conducted – Bulgarian or English. All our instructors are fluent in English.

Learning materials: in electronic format (Learning materials are in English) included in the price with unlimited access.

Lab environment: each student has his own lab environment where the exercises are conducted, part of the course.

Certificate for
Completed Course

Course Duration:

• 5 working days (09:00 – 17:00)

or

40 h. training (theory and practice) in overtime with a
duration of 4 weeks

Saturday and Sunday 10:00 – 14:00, 14:00 – 18:00, 18:00
– 22:00

Monday and Wednesday 19:00 – 23:00

Tuesday and Thursday 19:00 – 23:00

Payments:

An application for an invoice is accepted at the time of
enrollment in the respective course.

An invoice is issued within 7 days of confirming the payment.

Next Class:

- There are no upcoming events.

**For more information, use the contact form.
We will contact you to confirm the dates.**

Prerequisites:

- Experience working with Windows Server 2008 or Windows Server 2012
- Experience working in a Windows Server infrastructure enterprise environment
- Knowledge of the Open Systems Interconnection (OSI) model
- Understanding of core networking infrastructure components and technologies such as cabling, routers, hubs, and switches
- Familiarity with networking topologies and architectures such as local area networks (LANs), wide area networks (WANs) and wireless networking
- Some basic knowledge of the TCP/IP protocol stack, addressing and name resolution
- Experience with and knowledge of Hyper-V and virtualization
- Hands-on experience working with the Windows client operating systems such as Windows 8.1 or Windows 10

The course prepares for the following certification levels:

- **Exam 70-741: Networking with Windows Server 2016**

- [Може да се сертифицирате в нашия тест център с ваучер с отстъпка от цената на изпит.](#)
