

Amazon Web Services – Security Engineering on AWS

AWS Certified Security – Specialty

Security Engineering on AWS

About this Course:

This course demonstrates how to efficiently use AWS security services to stay secure in the AWS Cloud. The course focuses on the security practices that AWS recommends for enhancing the security of your data and systems in the cloud. The course highlights the security features of AWS key services including compute, storage, networking, and database services. You will also learn how to leverage AWS services and tools for automation, continuous monitoring and logging, and responding to security incidents.

Course Goals/Skills:

- Assimilate and leverage the AWS shared security responsibility model
- Manage user identity and access management in the

AWS cloud

- Use AWS security services such as AWS Identity and Access Management, Amazon Virtual Private Cloud, AWS CloudTrail, Amazon CloudWatch, AWS Key Management Service, AWS CloudHSM, AWS Config, AWS Service Catalog, and AWS Trusted Advisor
- Implement better security controls for your resources in the AWS cloud
- Manage and audit your AWS resources from a security perspective
- Monitor and log access and usage of AWS compute, storage, networking, and database services
- Assimilate and leverage the AWS shared compliance responsibility model
- Identify AWS services and tools to help automate, monitor, and manage security operations on AWS
- Perform security incident management, cloud resiliency, and business continuity in the AWS cloud

Audience:

This course is intended for security engineers, security architects, and information security professionals.

Course Format:

<input type="checkbox"/>	<input type="checkbox"/>
Присъствен (Classroom) Курс в Учебната ни зала или В Офис на Клиент	Онлайн (Online/Virtual) Курс във виртуална зала с инструктор

Course Language Option:

<input type="checkbox"/>	<input type="checkbox"/>
Български (Bulgarian)	Английски (English)

You can choose the language in which the training will be conducted – Bulgarian or English. All our instructors are fluent in English.

Student Guides:

The training materials are available in electronic format. They can be used online / offline on any device. Lifetime access.
