

# AZ-500 – Microsoft Azure Security Technologies

## Microsoft Official Course (MOC)

### AZ-500: Microsoft Azure Security Technologies

---

#### About this Course:

- Prepare for the official Microsoft Azure Security Engineer Associate certification exam AZ-500 in this Microsoft Azure Security Technologies course. In this hands-on course, you will gain the knowledge and skills needed to implement security controls, maintain the security posture, and identify and remediate vulnerabilities by using a variety of security tools. You will also learn scripting and automation, virtualization, and cloud N-tier architecture in this Azure Security course.

## Course Goals/Skills:

- Describe specialized data classifications on Azure
  - Identify Azure data protection mechanisms
  - Implement Azure data encryption methods
  - Secure Internet protocols and how to implement them on Azure
  - Describe Azure security services and features
- 

## Audience:

- Students should have at least one year of hands-on experience securing Azure workloads and experience with security controls for workloads on Azure.
-
