**TRAINING
PARTNER**

— PLATINUM —

IT-Training.pro is an Authorized Training Platinum Level Partner of the Linux Professional Institute and is the first company in Bulgaria to reach this level. All LPIC courses are in accordance with the official certification program with guaranteed quality and success.

About this Course:

- The LPIC-1 Linux Administrator certification is specifically designed for existing and aspiring Linux Administrators who need to maintain, install and configure workstations, as well as master the Linux command line. LPIC certifications are designed by Linux professionals and are vendor-neutral, teaching skills on both Debian-based (such as Ubuntu and Linux Mint) as well as RedHat-based (such as CentOS and Fedora) distributions. The skills you'll learn will be valuable whether you are managing an on-premises installation or virtual machines in the cloud. The course prepares you for the LPIC-1 101-500 exam. These cover system architecture, package management and installation, Bash commands, devices and filesystems. Whether looking to learn essential skills or certify your existing knowledge, the LPIC-1 certification is your first step in the highly-needed and versatile career of Linux System Administration.
-

Course Goals/Skills:

- Learn Linux
 - Learn Linux System Administration
 - Prep for the LPIC-1 Certification
-
