

CCSE – Check Point Certified Security Expert (CCSE) R80.x

156-315.80 – Check Point Certified Security Expert (CCSE) R80.x

- [There's a new version of this course. The current course will expire on 31 of March 2021. Please enroll into the new version.](#)

About this Course

- Advanced three-day course teaches how to build, modify, deploy and troubleshoot Check Point Security Systems on the GAIa operating system. Hands-on lab exercises teach how to debug firewall processes, optimize VPN performance and upgrade

Course Goals/Skills

- Backup your Security Gateway and Management Server
 - Build, test and troubleshoot a clustered Security Gateway
 - Upgrade and troubleshoot a Management Server
 - Configure and maintain security acceleration solutions
 - Manage, test and optimize corporate VPN tunnels
 - Build, test and troubleshoot numerous deployment scenarios
 - Apply insider tips troubleshooting Check Point Security Systems
 - Practice advanced upgrading techniques
 - Migrate to a clustering security solution
 - Create events for compliance reporting
 - Manage internal and external access to corporate resources
-

Audience

- Technical professionals who need to deploy and manage Endpoint Security within their security environment.
-

Course Format

Classroom Delivery

**Online - Virtual
Instructor Lead**

Language: English or Bulgarian

Course Materials: Digital Format. Lifetime Access. Official Learning Material from Check Point.

Lab: Individual Environment for each Delegate.

All Session
Recordings (24/7)

Certificate of
Course Completion

Course Duration

- 3 working days (09:00 – 17:00 / 9:00 am – 5:00 pm) UTC +2 (contact us for another Time Zone)

or

- **24 learning hours after hours (2 weeks, classes are held 2 times a week in one of the following options):**
- Sat. and Sun. 10:00 – 14:00 or 14:00 – 18:00 or 18:00 –

22:00

- Mon. and Wed. 19:00 – 23:00
 - Tue. or Thu. 19:00 – 23:00
-

Payments

[You can enroll with your Check Point Learning Credits.](#)

We provide Invoices for Company Sponsored Trainings.

Invoices can be requested up to 7 days after the payment.

All classes are confirmed individually after enrollment.

Prerequisites

- Security Administration Course or CCSA certification (R80 Not R77)
- Windows Server, UNIX and networking skills

- and TCP/IP experience
 - Certificate management and system administration
-

This Training will Prepare you to take the following Certification Exams (exam price included)

• 156-315.80 – Check Point Certified Security Expert (CCSE) R80.x

- You can Certify Online or at our Test Center.
-

Course Objectives

Identify advanced CLI commands. Understand system management procedures, including how to perform system upgrades and apply patches and hotfixes. Describe the Check Point Firewall infrastructure. Describe advanced methods of gathering important gateway data using CPView and CPInfo. Recognize how Check Point's flexible API architecture supports automation and orchestration. Discuss advanced ClusterXL functions. Describe VRRP network redundancy advantages. Understand how SecureXL acceleration technology is used to enhance and improve performance. Understand how CoreXL acceleration technology is used to enhance and improve performance. Identify the SmartEvent components that store network activity logs and identify events. Discuss the SmartEvent process that determines which network activities may lead to security

issues. Understand how SmartEvent can assist in detecting, remediating, and preventing security threats. Discuss the Mobile Access Software Blade and how it secures communication and data. Understand Mobile Access deployment options. Recognize Check Point Remote Access solutions. Discuss Check Point Capsule components and how they protect mobile devices and business documents. Discuss different Check Point Solutions for attacks such as zero-day and Advanced Persistent Threats. Understand how SandBlast, Threat Emulation, and Threat Extraction prevent security incidents. Identify how Check Point Mobile Threat Prevention can help protect data accessed on company-issued smartphones and tablets.
