

Certified Lead Privacy Implementer

Certified Lead Privacy Implementer (PECB)

About this Course:

- Lead Privacy Implementer training enables you to develop the necessary expertise to support an organization in designing, implementing, operating and maintaining Information and Communication Technology (ICT) systems that handle and protect Personally Identifiable Information (PII). During this training course, you will also have the opportunity to support an organization in improving privacy programs through the use of best practices and spur innovative solutions that enable the protection of PII within ICT systems.

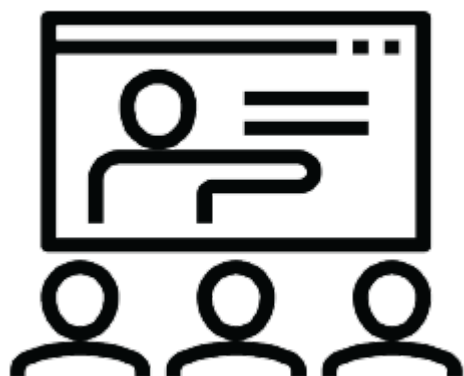

After mastering all the necessary concepts of ISO/IEC 29100, you can sit for the exam and apply for a “PECB Certified Lead Privacy Implementer” certificate. By holding a PECB Lead Privacy Implementer Certificate, you will demonstrate that you have the practical knowledge and professional capabilities to implement and manage a privacy

framework within an organization.

Course Goals/Skills:

- Comprehend the privacy principles of ISO/IEC 29100
 - Acknowledge the correlation between the concept of ISO/IEC 29100 and ISO/IEC 27000
 - Master the terminology, concepts and approaches used for the design, implementation, operation and maintenance of ICT systems that handle and protect PII
 - Learn how to interpret the high-level framework for the protection of PII with ICT systems in a specific context of an organization as provided by ISO/IEC 29100
 - Learn how to effectively advise organizations in defining their privacy safeguarding requirements related to PII
-

Course Format:

Присъствен (Classroom)
Курс в Учебната ни зала
или В Офис на Клиент

Онлайн (Online/Virtual)
Курс във виртуална зала
с инструктор
