## **Microsoft Official Course (MOC)**

### **Course DA-100: Analyzing Data with Microsoft Power BI (4 days)**

---

#### **About this Course:**

- 4 Days
- Instructor-led training
- English

Data analysts enable businesses to maximize the value of their data assets by using Microsoft Power BI. As subject matter experts, data analysts are responsible for

designing and building scalable data models, cleaning and transforming data, and enabling advanced analytic capabilities that provide meaningful business value through easy-to-comprehend data visualizations. Data analysts also collaborate with key stakeholders across verticals to deliver relevant insights based on identified business requirements.

The data analyst should have a fundamental understanding of data repositories and data processing both on-premises and in the cloud.
