

# ISO 37301 Lead Auditor

## ISO 37301 Lead Auditor (PECB)

---

### About this Course:

- The PECB Certified 37301 Lead Auditor training course enables you to develop the necessary competence to perform compliance management system (CMS) audits by applying widely recognized audit principles, procedures, and techniques.

Many organizations seek competent auditors to determine whether their policies, procedures, and controls adhere to ISO 37301 requirements. This training course aims to help you complete these tasks successfully and intends to reflect the importance of effective CMS audits. In addition, this training course aims to strengthen your knowledge and skills to plan and carry out CMS audits based on the guidelines for auditing management systems provided in ISO 19011 and the certification process described in ISO/IEC 17021-1.

This training course can potentially qualify you to conduct audits on behalf of conformity assessment bodies.

The exercises, quizzes, and case studies provided in this training course are designed to help you practice the most important aspects of a CMS audit: ISO 37301 requirements, auditing principles, tools and techniques used to obtain evidence, leading a team of auditors, conducting interviews with auditee, reviewing documented information, drafting nonconformity reports, and preparing the final audit report.

After successfully completing the training course, you can sit for the exam which is designed to measure your knowledge and skills regarding CMS audits. If you successfully pass the exam, you can apply for the “PECB Certified ISO 37301 Lead Auditor” credential. The “PECB ISO 37301 Lead Auditor” certification validates your professional capabilities and demonstrates that you have the knowledge and skills to audit a CMS based on ISO 37301.
