

**ISO/IEC
Implementer**

27001

Lead

ISO/IEC 27001 Lead Implementer (PECB)

About this Course:

- ISO/IEC 27001 Lead Implementer training course enables participants to acquire the knowledge necessary to support an organization in effectively planning, implementing, managing, monitoring, and maintaining an information security management system (ISMS).

Information security threats and attacks increase and improve constantly. The best form of defense against them is the proper implementation and management of information security controls and best practices. Information security is also a key expectation and requirement of customers, legislators, and other interested parties.

This training course is designed to prepare participants in implementing an information security management system (ISMS) based on ISO/IEC 27001. It aims to provide a comprehensive

understanding of the best practices of an ISMS and a framework for its continual management and improvement.

After attending the training course, you can take the exam. If you successfully pass it, you can apply for a “PECB Certified ISO/IEC 27001 Lead Implementer” credential, which demonstrates your ability and practical knowledge to implement an ISMS based on the requirements of ISO/IEC 27001.

Course Goals/Skills:

- By the end of this training course, the participants will be able to:
 1. Explain the fundamental concepts and principles of an information security management system (ISMS) based on ISO/IEC 27001
 2. Interpret the ISO/IEC 27001 requirements for an ISMS from the perspective of an implementer
 3. Initiate and plan the implementation of an ISMS based on ISO/IEC 27001, by utilizing PECB’s IMS2 Methodology and other best practices
 4. Support an organization in operating, maintaining, and continually improving an ISMS based on ISO/IEC 27001
 5. Prepare an organization to undergo a third-party certification audit
