

ISO/IEC 27002 Lead Manager

ISO/IEC 27002 Lead Manager (PECB)

About this Course:

- ISO/IEC 27002 Lead Manager training enables you to develop the necessary expertise and knowledge to support an organization in implementing and managing Information Security controls as specified in [ISO/IEC 27002](#).

After completing this course, you can sit for the exam and apply for the “PECB Certified ISO/IEC 27002 Lead Manager” credential. A PECB Lead Manager Certification, proves that you have mastered the principles and techniques for the implementation and management of Information Security Controls based on ISO/IEC 27002.

Course Goals/Skills:

- Master the implementation of Information Security controls by adhering to the framework and principles of

ISO/IEC 27002

- Gain a comprehensive understanding of the concepts, approaches, standards, methods and techniques required for the effective implementation and management of Information Security controls
 - Comprehend the relationship between the components of Information Security controls, including responsibility, strategy, acquisition, performance, conformance, and human behavior
 - Understand the importance of information security for the strategy of the organization
 - Master the implementation of information security management processes
 - Master the formulation and implementation of security requirements and objectives
-
