

ISO/IEC 27005 Risk Manager

ISO/IEC 27005 Risk Manager (PECB)

About this Course:

- ISO/IEC 27005 Risk Manager training enables you to develop the competence to master the risk management process related to all assets of relevance for Information Security using the [ISO/IEC 27005](#) standard as a reference framework. During this training course, you will also gain a thorough understanding of best practices of risk assessment methods such as OCTAVE, EBIOS, MEHARI and harmonized TRA. This training course corresponds with the implementation process of the ISMS framework presented in the ISO/IEC 27001 standard.

After understanding all the necessary concepts of Information Security Risk Management based on ISO/IEC 27005, you can sit for the exam and apply for a “PECB Certified ISO/IEC 27005 Risk Manager” credential. By holding a PECB Risk Manager Certificate, you will be able to demonstrate that you have the necessary skills and knowledge to

perform an optimal Information Security Risk Assessment and timely manage Information Security risks.

Course Goals/Skills:

- Acknowledge the correlation between Information Security risk management and security controls
 - Understand the concepts, approaches, methods and techniques that enable an effective risk management process according to ISO/IEC 27005
 - Learn how to interpret the requirements of ISO/IEC 27001 in Information Security Risk Management
 - Acquire the competence to effectively advise organizations in Information Security Risk Management best practices
-
