ISO/IEC Implementer

27701

Lead

ISO/IEC 27701 Lead Implementer (PECB)

About this Course:

• The ISO/IEC 27701 Lead Implementer training course enables you to develop the necessary expertise to assist an organization to establish, implement, maintain and continually improve a Privacy Information Management System (PIMS) based on ISO/IEC 27701 by enhancing an existing ISMS based on ISO/IEC 27001 and the guidance of ISO/IEC 27002.

This training course is designed to prepare its participants implement a Privacy Information Management System (PIMS) in compliance with the requirements and guidance of the ISO/IEC 27701. Moreover, you will gain a comprehensive understanding of the best practices of privacy information management and learn how to manage and

process data while complying with various data privacy regimes.

After mastering the implementation and management of a Privacy Information Management System (PIMS), you can sit for the exam and apply for a "PECB Certified ISO/IEC 27701 Lead Implementer" credential. The internationally recognized PECB Lead Implementer Certificate proves that you have the practical knowledge and professional capabilities to implement the ISO/IEC 27701 requirements in an organization.

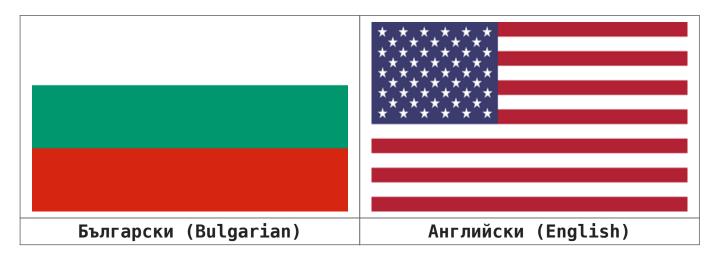

Course Goals/Skills:

- Master the concepts, approaches, methods and techniques used for the implementation and effective management of a PIMS.
- Learn about the correlation between ISO/IEC 27701, ISO/IEC 27001, ISO/IEC 27002 and other standards and regulatory frameworks.
- Understand the operation of a PIMS based on ISO/IEC
 27701 and its principal processes.
- Learn how to interpret the requirements of ISO/IEC 27701 in the specific context of an organization.
- Develop the expertise to support an organization in effectively planning, implementing, managing, monitoring and maintaining a PIMS.

Course Format:

Course Language Option:

You can choose the language in which the training will be conducted — Bulgarian or English. All our instructors are fluent in English.

Student Guides:

The training materials are available in electronic format. They can be used online / offline on any device. Lifetime access.

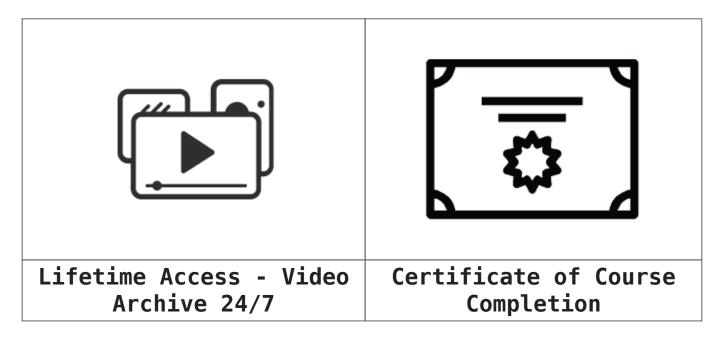

Lab Environment:

Each student has their own lab environment where the exercises are conducted, part of the course. You do not need to install software on a computer or special hardware requirements.

Participants in a face-to-face format in our Training Center have an individual computer during the training.

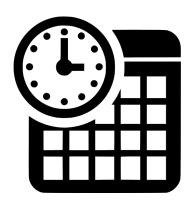

At Course Completion:

Lifetime access to a video archive with recording of each individual lecture.

Official internationally recognized certificate for completed training course.
