ITIL® 4 Specialist: High Velocity IT

ITIL® 4 Specialist: High Velocity IT

About This Course:

- he ITIL® 4 Specialist: High-Velocity IT course is designed to enable practitioners to explore the ways in which digital organizations and digital operating models function in high-velocity environments. It will help aspiring organizations to operate in a similar way to successful digitally-native organizations. The course includes the use of working practices such as Agile and Lean, and technical practices and technologies such as

Cloud, Automation, and Automatic Testing. The focus of these practices and technologies is on the rapid delivery of products and services to obtain maximum value. Exam Voucher Included.

Course Goals:

ITIL 4 Specialist: High-velocity IT course will provide you with the skills and knowledge to:

- Understand the rapid nature of the digital enterprise and how to co-create resilient and valuable digital services at speed
- Understand the benefits of a less centralised approach to IT service delivery
- Optimise end-user services and make the right investments for your organisation using the latest digital technology and design thinking
- Balance working with complex, adaptive systems enabled with flexible practices that adapt to changing environments
- Demonstrate how to integrate the digital product lifecycle with ITIL's core operating model to meet and exceed business goals
- Utilise new ways of working and approaches to enable small incremental steps to improve services to co-create increased value
