

Lead Ethical Hacker

Lead Ethical Hacker (PECB)

About this Course:

- As the impact of security incidents in small and large organizations has increased significantly, so has the demand for ethical hacking. Ethical hacking is one of the most effective tools of safeguarding assets and protecting people and information. Ethical hacking certification is slowly becoming a standard requirement for professionals who want to work in the field of information security.

A PECB Certified Lead Ethical Hacker certification will help you demonstrate your ability to lawfully assess the security of systems and discover their vulnerabilities. The training course provides information on the latest ethical hacking methods and tools. It also provides a methodology for conducting penetration tests in accordance with standards and best practices, such as the Penetration Testing Execution Standard (PTES) and the Open Source Security Testing Methodology (OSSTMM).

Understanding hackers' strategies helps solve

security issues and challenges. After attending the training course, you will be able to plan, manage, and perform information security penetration tests.

The PECB Certified Lead Ethical Hacker training course is based on the concept of practicing what you learned. It includes lab sessions and practical examples to help you apply the theory into practice.

The training course is followed by an exam. If you pass, you can apply for a “PECB Certified Lead Ethical Hacker” credential. For more information about the examination process, please refer to the Examination, Certification, and General Information section below.

Course Goals/Skills:

- Master the concepts, methods, and techniques used by cybersecurity organizations and ethical hackers to conduct penetration tests
- Acknowledge the correlation between penetration testing methodologies, regulatory frameworks, and standards
- Acquire a comprehensive knowledge of the components and operations of ethical hacking

Course Format:

<input type="checkbox"/>	<input type="checkbox"/>
Присъствен (Classroom) Курс в Учебната ни зала или В Офис на Клиент	Онлайн (Online/Virtual) Курс във виртуална зала с инструктор

Course Language Option:

<input type="checkbox"/>	<input type="checkbox"/>
Български (Bulgarian)	Английски (English)

You can choose the language in which the training will be conducted – Bulgarian or English. All our instructors are fluent in English.

Student Guides:

The training materials are available in electronic format. They can be used online / offline on any device. Lifetime access.

Lab Environment:

Each student has their own lab environment where the exercises are conducted, part of the course. You do not need to install software on a computer or special hardware requirements.

Participants in a face-to-face format in our Training Center have an individual computer during the training.

At Course Completion:

Lifetime Access - Video
Archive 24/7

Certificate of Course
Completion

Lifetime access to a video archive with recording of each individual lecture.

Official internationally recognized certificate for completed training course.

Course Duration:

- 5 working days (09:00 – 17:00)

or

- 40 hours training (theory and practice) in non-working

hours lasting 4 weeks

Saturday and Sunday 10:00 – 14:00, 14:00 – 18:00, 18:00 – 22:00

Monday and Wednesday 19:00 – 23:00

Tuesday and Thursday 19:00 – 23:00

Payments:

An application for an invoice shall be accepted at the time of entry of the relevant course.

An invoice is issued within 7 days of confirmation of payment.
