

# PSM – Professional Scrum Master Training

## Professional Scrum Master Training

---

### About this Course:

- Professional Scrum Master™ (PSM) is an interactive, activity-based course where students gain a strong understanding of Professional Scrum and the role of the Scrum Master. Through a combination of discussion and exercises, students develop a deep understanding of the underlying principles of Scrum and the Agile mindset while learning the practices applied by successful Scrum Teams. The course also includes a free attempt at the globally recognized Professional Scrum Master I (PSM I) certification exam.

---

### Course Goals:

- Help Scrum Teams deliver value to their organization
- Understand the theory and principles behind Scrum and empiricism

- Understand how each part of the Scrum framework ties back to the principles and theory
  - Understand uncertainty and complexity in product delivery
  - Understand the meaning and importance of the Scrum values
  - Learn what Done means and why it is crucial to transparency
  - Know how to use the Product Backlog to plan with agility
  - Understand the importance of self-managing teams, interpersonal skills needed, and the Scrum Master role
  - Clarify the leadership role a Scrum Master play on the team
  - Learn the skills and traits and behavior shifts required to be a Scrum Master
- 

## **Audience:**

- This course is appropriate for students in any industry where teams are working to solve complex problems. The Professional Scrum Master course is for:
    - Practitioners that are interested in starting a career as a Scrum Master
    - Scrum Masters, Agile/Scrum Coaches and consultant looking to improve their use of Scrum
    - Anyone involved in product delivery using Scrum
-
